

First web page for me

May 23, 2023

1 Who Am I

I'm a normal person creating a website to show people what I'm interesting in.

1.1 Which software do I use

1. Gnu Emacs being the ultimate computing/hacking environment.
 - org mode
 - org roam
 - company(COMPLetion ANYwhere)
 - Magit(A Git Porcelain inside Emacs)
 - emacs(the C source code of emacs which contain all the goodies)
2. Gnu/Linux Operating System.
3. firefox(light, fast and secure).
4. i3WM(window manager).

This is just some of what I use on daily basis.
There are still alot more to show here but I'll keep it short for this page.

1.2 Why I use Gnu Emacs

Emacs has been around forever, and the people who change the world of computing was and still using Emacs and I'm using Emacs to look cool.

1.3 Images

https://upload.wikimedia.org/wikipedia/commons/5/59/Emacs_512.png

1.4 Future plans

- Starting a blog post
- Backup all my config files in github
- Extending this page
- Buying a domain name

1.5 Tables

Table heading 1	Table heading 2
